

Non-Invasive Prenatal Test | Request Form

FOR THE DOCTOR

This test should be requested by the doctor responsible for managing a woman's decision-making regarding Non-Invasive Prenatal Testing.

Patient details

First name _____ Surname _____

Date of birth ____/____/____ Gender **Female – Pregnant**

Address _____

Phone (mobile) _____

Test/s requested

SINGLETON

Harmony™ Prenatal Test T21, T18, T13 Monosomy X

Fetal gender Sex chromosomes aneuploidy panel

TWIN

Harmony™ Prenatal Test T21, T18, T13 Fetal gender (detects presence of one or two male twins)

Is this a **RECOLLECTION?** Previous Lab ID _____

Clinical information

REQUIRED

ALL fields must be completed for testing to proceed.

Note If any of the clinical information changes, the lab must be notified as the data captured below is included in the test algorithm.

GESTATIONAL AGE

Either Weeks ____ Days ____ as at ____/____/____ (date)

or LMP EDC IVF ____/____/____ (date)

CONCEPTION DETAILS

Natural IVF (Patient egg) | Maternal age at egg retrieval ____ yrs

IVF (Donor egg) | Maternal age at egg retrieval ____ yrs

MATERNAL INFORMATION

Maternal weight (kg) _____ Maternal height (cm) _____

Harmony™ Prenatal Test is not validated for 3 or more fetuses, or in the presence of a demised fetus. The Harmony™ Prenatal Test examines for certain aneuploidies in viable singleton and twin pregnancies by natural or IVF conception after 10 weeks' gestation. Specific exclusions are detailed at www.sonicgenetics.com.au. Please note that the requested clinical information is essential for test accuracy.

FOR THE PATIENT – Patient consent

I consent to the Harmony™ Prenatal Test being performed and confirm that I have been informed about the purpose, scope, and limitations of the test by my doctor, patient literature and/or the Sonic Genetics website. I understand that the test is a screen for selected abnormalities of chromosomes 21, 18 and 13; that the test can also screen for less serious selected abnormalities of the sex chromosomes, and identify fetal gender; that the result should be reviewed by my doctor in the light of other findings; that a 'high-risk' result should be confirmed by fetal karyotype; that a second collection may be required; and that 1-2% of tests do not yield a result due to biological factors (with prepaid tests for chromosomes 21, 18, and 13 being refunded). I have had the opportunity to ask questions and understand that I can request further information or genetic counselling.

I consent to my identified result being used with Government birth records solely to audit the Harmony™ test, and understand that I would not be identified in reports of such audits. [Delete this sentence if you do NOT consent to releasing your result for audit purposes].

Signature _____ **PATIENT SIGNATURE** Date _____

Collection appointment and payment:

See overleaf for Collection Centre listing and payment details, please note Medicare benefits do not apply.

Please make sure you bring this form with you on the day.

If you have any queries please call our Patient Services Support Centre Team on 07 3377 8747.

FOR THE COLLECTOR

I certify I established the identity of the patient named on this request, collected and immediately labelled the accompanying specimen(s) with the patient's name, DOB and date/time of collection.

Collector's name: _____
